

YOUR VOYAGE

MILEPOSTS

1 SIGN UP

Once you submit a sign-up form, you will receive the login details for your student/s to access our free 14-day trial. This takes us about 12 - 24 hours or 24 - 48 hours during the busy season (Jan - May).

2 LOG IN

Once the login details have been received, your student/s will be guided step by step on how to complete the placement tests.

3 PLACEMENT TESTS

All new students begin with a series of placement tests, regardless of age or previous grades passed. This is to ensure the accuracy of their grade placement, as well as their readiness for one of our highschool curriculums.

4 GET INFORMED

Once your student(s) have completed their placement tests, you will receive an invitation to schedule a virtual session with us. During this meeting, we will discuss your student(s)' results and their placement. Based on these results, our Orientation Squad will help you select the most suitable Pathway for your student.

5 GET ONBOARDED

Are you excited to continue this journey with us? A virtual onboarding session will help you navigate your chosen Pathway and ensure you grasp the essential elements of your student(s)' learning experience with us.
