

LAUNCHING 1 FEB 2025

# ELEMENTARY & MIDDLE SCHOOL

with EDUC8 SA

An exciting new addition to our curriculum choices

# INTRODUCTION

Today, we'll explore the American Elementary & Middle School curriculum option and provide answers to questions you might have.

Here are some important topics we'll be exploring:

Self-paced learning, engaging, video-based courses that spark your child's love for learning.

Our intention to aid parents in homeschooling their children and how we accomplish that.

Course choices and curriculum flexibility.

Independent learning and the role of the parent.

# INTEGRATED FEATURES

MEMORIZATION DRILLS

ON-SITE LESSON PLANS

REVIEWS & EXAMS

VIDEO-BASED LESSONS

DIGITAL BOOKS

INTERACTIVE PRACTICE  
PROBLEMS

HELP VIDEOS FOR DIFFICULT  
CONCEPTS

# WHY CHOOSE THIS CURRICULUM?

Our online elementary  
& middle school  
serves students in  
kindergarten through  
8th-grade.

Our elementary & middle  
courses include core subjects  
such as mathematics,  
language arts and reading,  
science, and social studies.  
Students will take elective  
courses, such as coding and  
music, as well.

Our program ensures that  
each student has mastered  
necessary concepts before  
moving them on to the next  
grade, keeping them on pace.

Our online elementary &  
middle school will provide  
students with the knowledge  
they need to move on to our  
online middle school program.

It is supported by an  
incredible staff of educators;  
our online elementary &  
middle school program uses  
captivating videos and  
interactive course materials.  
This engaging instructional  
format maintains the attention  
of even the youngest  
students.

# AS A STUDENT

Each course is self-paced, allowing you to spend extra time as needed to master each lesson concept. You have the flexibility to plan and adjust your schedule as needed.

Our program allows students to learn at their own pace and on their own schedule. If you struggle, the system provides additional instruction and practice as needed. When you excel, the system moves forward quickly as you demonstrate mastery of each concept.

If you need help to grasp a concept after watching the initial video lesson, additional in-depth videos are presented as a helping hand. Other help resources including the Lesson Manual and Help Videos are also available.

Our system automates much of the busy-work associated with grading and keeping records so that you can focus on what matters most – helping your child succeed.

You can set weekly goals and monitor student progress. These goals will be communicated to your student, showing them when they are on-track or behind.

You have instant access to detailed reports and the current status on your student's work and progress.

The Live Monitor tool allows you to review your student's work. If your student is having trouble with a particular problem, the system will flag the concept and alert you. With these insights, you can better assist your student with challenging concepts.

Parents have access to detailed reports for each lesson and subject. A student's report card will break down each course they are enrolled in, their grade for the class, and their overall GPA. Parents can print these report cards for their records.

# AS A PARENT

# MAKE LIFE EASIER

Take a look at these helpful tools that will make your student's education simpler!

## REVIEWS & EXAMS

At the conclusion of each unit, students take a review which is followed by an exam. During the review, students have the opportunity to review videos and help resources from lessons within the unit.

## GOALS & PROGRESS

Parents may specify weekly goals to help students stay on-pace with completing each course. Students may review their progress toward meeting these goals within the student interface.

## PROGRESS REPORTS

Students and parents will get real time feedback and can see their progress and score for each class from the student/parent interface.

Parents can print report cards for their records.

Parents have access to detailed reports for each lesson and subject. A student's report card will break down each course they are enrolled in, their grade for the class, and their overall GPA.

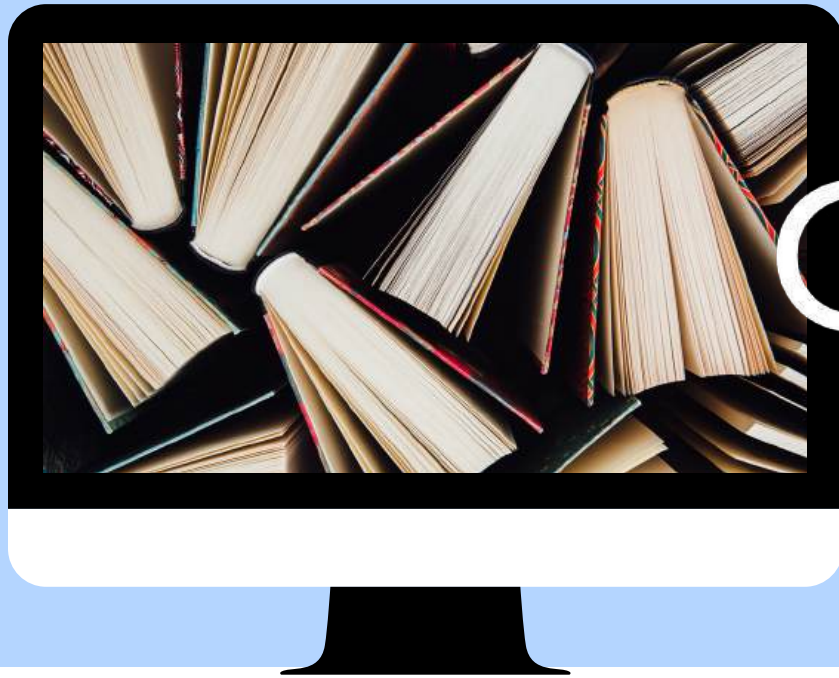

## ATTENDANCE

Student attendance is logged automatically by the system. Reports can be easily printed showing days when the student worked and total hours spent.

Parents are responsible for ensuring adequate student attendance as dictated by The BELA Bill's requirements for homeschooling.

# COURSES

Parents can select up to seven courses for their student, such as mathematics, language arts and reading, science, social studies, and electives.

## CORE SUBJECTS

Mathematics  
Language Arts/ Reading  
Science  
History/Social Studies

## ELECTIVE SUBJECTS

STEM 1: Intro to Coding  
STEM 2: JavaScript  
STEM 3: Electronics and Coding  
Elementary Ecology  
Elementary Engineering

Foundations of Music  
Elementary & middle school: Social & Emotional Health  
Discover Spanish  
Discover Portuguese  
Introduction to Music Appreciation  
Elementary Art

# WHAT MAKES US DIFFERENT?

Each course combines professional footage with instruction from some of the top teachers in the country for captivating lessons in various subjects.

With our interactive elementary & middle homeschool program, students can engage their interests while nurturing their passions for a positive learning experience. We also provide these valuable tools that contribute to making our homeschool curriculum successful.

The technology built into our courses that we provide set us apart from other options while giving your child the resources they need to thrive.

# JOIN NOW
